

Acoustics, 2008, 0113228139, 9780113228133, Stationery Office, 2008

This document sets out acoustic criteria for the design and management of new healthcare facilities. It does not give solutions to meet the acoustic criteria - designers on each individual project should develop these. A specialist acoustic advisor should be used to take a holistic approach to the acoustic design from the outline design stage so therefore detailed acoustic theory is not included in this HTM. This document sets out the minimum recommended criteria which may not be appropriate for all projects.
